Sheboygan PAINT COMPANY

SOLUTIONS FOR THE

DRUM INDUSTRY

Keep Your Paint Line Running

With Sheboygan Paint Company High-Quality Coatings

The Sheboygan Paint Company portfolio includes coating systems that provide optimum protection for drums. We offer custom chemical-resistant, easy-to-apply exterior topcoats and interior liner products that stand up to end-user processes.

Drum OEMs and re-conditioners require paint that sprays, applies and cures precisely to their specifications. Their coatings must work consistently, reliably and efficiently with their equipment so they can run their paint lines 24 hours a day, if needed. That's why the nation's largest drum OEMs and re-conditioning facilities rely on Sheboygan Paint Company to meet their coating needs.

We tailor our custom products to each individual manufacturing or reconditioning site. Line speeds, application equipment, color patterns, environmental conditions and local regulations can all play a vital role in providing unique finished products.

With an industry-leading quality rating, top-notch R&D professionals and responsive Technical Service Team, Sheboygan Paint Company is recognized as an expert resource to solve nearly any paint line challenge. We work hard to make OEMs and re-conditioners look good to their customers by ensuring our products efficiently coat to produce protective, durable surfaces.

"We have been a customer of Sheboygan Paint Company for more than 30 years. Their product is good. It's consistent. And on those rare occasions when we do have a problem, they respond immediately to get it corrected and they have knowledgeable people to get it squared away. They're very attentive and will go the extra mile for us."

- Global Buyer, Leading Metals Manufacturing Company

Attributes

Sheboygan PAINT COMPANY

Top-performing Exterior Topcoat & Interior Liner Products

Sheboygan Paint Company produces exterior topcoat products in various technologies for bake, air-dry or force-cured finishes, as well as chemical-resistant phenolic and epoxy phenolic interior liner products.

Our products are uniquely formulated to meet each customer's needs. Our phenolic resins, used for interior liners, are very hard and durable. They are extremely resistant to solvents and acids like insecticides, agricultural chemicals and corrosive materials. Our FDA-compliant epoxy phenolic resins for interior liners work well with water-based products, medium-strength solvents, mild acids and detergents.

Through our innovative custom formulations, we have established a portfolio of high-performing products. These solutions provide a range of durable coatings that can extend the service life of drums.

WATER-BASED SYSTEMS

- Alkyd/Melamine Bake Enamel

SOLVENT-BASED SYSTEMS

- Modified Alkyd Bake Enamel
- Modified Alkyd Air Dry Enamel
- Epoxy/Phenolic Linings
- Phenolic Linings
